#### THE HAWKWIND ALBUMS

There is no shortage of Hawkwind material on CD - official, semi-official & bootlegs of studio and live sessions. Not to mention countless compilations and repackaged discs which look exciting but turn out to be Wembley 1973 again. Here is my take on the major 'Official' releases followed by a collection of live CDs. You can pretty much ignore the rest - I don't know who advised Hawkwind that such wide-scale licensing was a good idea but it has devalued the core catalogue and made it difficult for new fans to know where to start. some of it is so dire it has probably deterred many who would otherwise have got into the quality we all know is there.

#### LIVE ALBUMS

Hawkwind are essentially a live band and I can't think of a single studio track that hasn't been captured better somewhere on stage. Here's a list of the live albums I'm aware of, some more official than others, and I have to confess I've not heard all of them yet myself. I'll add some star ratings as and when I get a chance.

**The Text of Festival**- 1970/1971: BBC Sessions/Cambridge Corn Exchange
