Hawkwind DVD/Video Trading

I'm keen to trade/buy new or improved material.

Please [contact me](#) if we can help each other out (don't forget to mention which country you're based in - I'm in the UK, but regularly trade worldwide).

None of the items on this page are for sale and I do not expect any traded items to be sold on (especially on eBay!!)

I prefer to trade for other Hawkwind DVD/VHS but will consider other options - including Hawkwind memorabilia or films of other bands I'm into - particularly Gong and Steve Hillage.

Concert Films

Most shows now are probably being filmed, at least in part, by digicam wielding members of the audience. The films range from shaky, distant, dark, obscured, impossible to watch through to steady, clear, close films with great sound. There's virtually nothing from the 70's or 80's but the 90's and 00's are well covered.

The ratings: * - fairly tough going - hardcore fans only; ** - not bad, watchable for long stretches; *** - Pretty good or better throughout;

Note the tracks listed are the whole gig set list - not necessarily what is on the film - I'll tidy this up when I get a chance...

Hawkwind Merchandising/Taste Productions Deleted Releases

These are fair game for trading as they are no longer available on VHS and have never been released on DVD. Many audience videos are actually better than these so called 'official' releases!
